

## May 17th 2017 Public Meeting Agenda

### 4:00-4:15 Greetings and Introductions

### 4:15-4:30 Klawock Lake Sockeye Salmon Predation Study

Quinn Aboudara of the Klawock Cooperative Association will present a brief overview and results of the 2016 Klawock Lake Sockeye Salmon Predation Study.

### 4:30-4:45 Retrospective Analysis Report and Habitat Assessment

Christine Woll of The Nature Conservancy will present results from the retrospective analysis report that was compiled to understand past history, research, and management related to Klawock Lake sockeye salmon. They will also present results from habitat assessment work that was completed to understand habitat impacts on sockeye salmon spawning areas.

### 4:45-5:00 Southeast Alaska Fish Habitat Partnership Presentation

Deborah Hart of the Southeast Alaska Fish Habitat Partnership (SEAKFHP) will present a brief overview of the partnership and considerations on how SEAKFHP may be able to help support collaborative investments for Klawock Lake sockeye.

### 5:00-5:10 Break

### 5:10-5:25 Klawock River Hatchery Presentation

Southern Southeast Regional Aquaculture Association (SSRAA) will present an overview of current management at the Klawock River Hatchery.

### 5:25-5:50 Public Commentary, Questions and Answer Session

This time is for public commentary and for presenters and organizational representatives to address questions from the public.

Organizations represented will include:

Alaska Department of Fish and Game

Southern Southeast Regional Aquaculture Association

United States Forest Service
